## **DETAILED ACTION**

1. Claims 1-3,6-13,27,40-42 and 44-50 are pending. Claims 4,5,14-26,28,29 and 43 are cancelled. Claims 30-39 are withdrawn. Claims 1,3,27,40 and 42 have been amended.

### ***Response to Amendment***

2. Applicant's amendments, filed March 17, 2006, with respect to claims 1,3,27,40 and 42 have been fully considered and are sufficient to overcome the 35 USC 102(b) rejection of claims 1-4,6-13,27-29 and 40-50 in view of Evans WO 96/37570. The rejection of the claims has been withdrawn.

3. Applicant's amendments, filed March 17, 2006, with respect to claims 1,3,27,40 and 42 have been fully considered and are sufficient to overcome the 35 USC 112 rejection of claims 1-3,6-13,27-29 and 40-50. The rejection of the claims has been withdrawn.

4. Applicant's amendments, filed March 17, 2006, with respect to claims 1,27 and the cancellation of claim 43 have been fully considered and are sufficient to overcome the 35 USC 112 rejection of claims 1,27 and 43. The rejection of the claims has been withdrawn.

### ***Response to Arguments***

Art Unit: 1751

5. Applicant's arguments, filed March 17, 2006, with respect to the obviousness-type double patenting rejections of claims 1,3,4,27-29,40,42 and 43 over copending applications 09/877,306 (US 2002/0020828) and 09/935,897 (US 2002/0171063) have been fully considered and are persuasive. The rejections of the claims have been withdrawn.

***Claim Rejections - 35 USC § 112***

6. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

7. Claim 1-3,6-13,27,40-42 and 44-50 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The claim language "greater than 60 percent to about 70 percent" recited in claims 1 and 27 does not have sufficient basis in the specification. Although the specification recites "the non-aqueous heat transfer fluid may contain EG in any amount ranging between 0 percent by weight to about 70 percent by weight" (page 4, paragraph 0049), the recitation does not provide sufficient basis for choosing the range greater

than 60 percent to about 70 percent. Appropriate correction of the claim language is required.

Claims 2,3,6-13,40-42 and 44-50 are also rejected for being dependent on either claims 1 or 27 and inheriting the same deficiency.

### ***Conclusion***

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
